BEIRUT NEWS

(Cont. from Page 7)

Attendance at the picnics on Mt. Sannin were other diversions.

Working hours at the four stations differ according to location.

Attend the Baalbek Music Festival and the International Nida Simaan (Gov't Relations).

A woman's intuition for none of my own pictures turned out. Better luck next time.

Jean Foody (Industrial Relations) is available in the apartment.

Mrs. Clarence Rush of Turaif. (Latest word from Rush who says the pie is “by far the pie fan, Clarence G. Rush, Dick was passing through on his way home and he picked up the elephant’s favorite pie. (Latest word from Rush who says the pie is “by far the best pie” he has ever had.)

The filling is made in a double boiler, according to Mrs. Rush, often results in understanding it; besides that method takes too much stirring and attention. Her way, she says, is quicker and much less lumpy. The ingredients are:

- 5 tablespoons of corn starch
- 1 cup and 2 tablespoons sugar
- 1 teaspoon salt
- 2 egg yolks slightly beaten
- 1 cup or 2 teaspoons lemon juice
- 2 tablespoons grated lemon rind

Mix the sugar and corn starch and add 1 cup water. Bring the other cup and a half of water in a saucepan, then stir in the sugar and starch mixture. This mixture clears up and becomes thick and syrupy. Pour some of it over the egg yolks and stir until it is cold. Stir constantly. Turn the flame down low and add butter, lemon juice and rind. Cool it until you’re ready to add it to the crust — but be sure the crust has cooled, too.

The meringue is simply three stiffly beaten egg whites (with 4 tablespoons of granulated sugar added gradually during the beating). Pour the meringue on top of the filling, then sprinkle a little sugar over the top of the meringue — to make it easy to cut without sticking to the knife.

Mrs. Rush’s crust is something special and it will serve as a wonderful substitute for a short, flaky crust that usually melts in your mouth.

For “Perique” gourmets the following recipe was obtained from a restaurant. Mrs. Rush who says the pies “by far the best crust” she has ever had. The ingredients are:

- 1 1/2 cups flour
- 1/2 cup shortening
- 1/2 teaspoon salt

Mix these ingredients until the mixture clears up and becomes thick and syrupy.

IN THE SPOTLIGHT

Khachik Akhatcherian of Beirut Accounting marked up ten years of service with the Company on October 11, 1956. (Photo Sayak).

A special brand of chewing tobacco closes. (Photo by R. Fanous).

In the display of home-grown floral arrangements, the committee judged Mrs. Arnold’s entry as the winner with second place going to Mrs. H. E. Cross and third to Mrs. A. W. Bichoff. Other winners were Medamas H. L. Krupp, George Hild, J. H. Terry, Drues, and Brown.

A delicious chakshoh-barbab topped off the event which was enthusiastically attended. Arrangements have been made that club members should start working on their lawns for the spring garden show to be held in May or June of next year.

AERIAL PHOTO MAPPING CREW HEADQUARTERED AT QAISUMAH

To further the development of Saudi Arabia's natural resources, nearly one-fourth of the country is now being mapped from the air by the Saudi Arabian Government by Aero Service Corporation.

Arriving at Qaisumah from Rafha were (left to right) A. Sweidan, Dr. and Mrs. H. C. Davis and (right) Mr. Abner Burnitt. Also on hand to welcome the Aero crew were Mrs. Masoud, W. B. Pickett of Rafha, Mrs. Owen and R. D. Lewis of Qaisumah. (Photo courtesy of C. Massey and B. Davies of Qaisumah.)

LEWIS HONORED AT RETIREMENT DINNER

On the occasion of his retirement from the company, Mr. Robert B. Lewis of Operations was guest of honor at a dinner given by Rafha personnel on September 3. Mr. Lewis had been a Tapline employee since 1930, when he was hired as a ground school teacher at the Rafha station. However, he returned to the United States following the war, and has been employed by Tapline in various capacities since.

During his five years of service with Tapline, Mr. Lewis was located at both Turaif and Rafha. Mrs. Lewis, who is now teaching in the field in 1931, was a Tapline school teacher at the Rafha station. However, she returned to the United States following the war, and has been employed by Tapline in various capacities since.

The Lewises plan to return to the United States and pursue their favorite activities, especially tennis and fishing.

D. M. Young

A new line from the U.S.A., Mr. Young replaces Mel Christensen as Training Division Coordinator. Now an Amram employee, Mel returned to Turful to accompany Mr. Young on a familiarization trip along with Mr. Young, Mrs. Young will join her husband here within a few months. The Youths have an 18-year-old son, Donald M., Jr., who is presently attending college in the United States.

Transferring from Beirut, Mr. Farid Najjar and his family will now make Turiful their home. Mr. Farid Najjar is with the Engineering Department and will serve as Operations Engineer for the Line.

Following home leave and a special assignment in Beirut, Mr. Bill Sallam and family have returned to Turful where Bill functions as Coordinator-Construction. No newcomers, the News were Turful residents for a long period before their transfer to Badanah last year.

A former Rafha employee, Nick Salam was assigned to Turful Stovehouse after visiting his family in Lebanon. The Youngs have an 18-year-old son, Donald M., Jr., who is presently attending college in the United States.

"WEDDING BELLS"

Mrs. and Mr. C.P. Van Der Klink

Congratulations are in order for two newly-wedded couples that were married during August and September. Lucky lads and ladies are Khalil Saadeh and C.P. Van Der Klink.

Khalil and Miss Jamele Dib were married August 17 in the home of the bride's mother in Beirut. Following the ceremony, the newlyweds departed on a motor tour of Belgium, Holland, Germany, Austria, Italy, Monaco and France. They are presently residing in Beirut where Khalil has been assigned to the Catholic Polytechnic.

Their memorable reading was a display of sheer virtuosity, individually and collectively.

The Company is most happy to be associated with the Kuwaiti Conservatory of Music, presenting their fine American and Middle Eastern talents, in addition to giving recognition to the Tapline. The Tapline, as the Conservatory, the concert will contribute materially to the general advancement of music and music education.

Norah? I must tell her to stop chewing gum; she might tire.

"Thinking is the hardest work you'll ever do, so choose the things worth doing"... but not in the net, please!! Again came the referee calling: "6—5, Tapline!"

"D烘干 excitement, just return the ball... but not in the net... please?" Again came the referee's voice: "Six all, nobody holding... 8-6, game, set and match to IPC." Later Bassoul told me that had the six and Mary taken the second set they could have won the third easily.

"Time for lunch. But, who had an appetite? I could only think that room leaders and Paul were eating. I felt so happy; it is like a vacation for us. We may engage in it.

"Mixed doubles up; mixed doubles over!" Tapline out.

"We won the first day of tournament play with Tapline eliminated in all events except the men's singles.

"On Mary, Renee, it's a set point," I said to myself, "I'm not excited, just return the ball... but not in the net... please?"
